YOU ARE INVITED

industry 4.0 applications

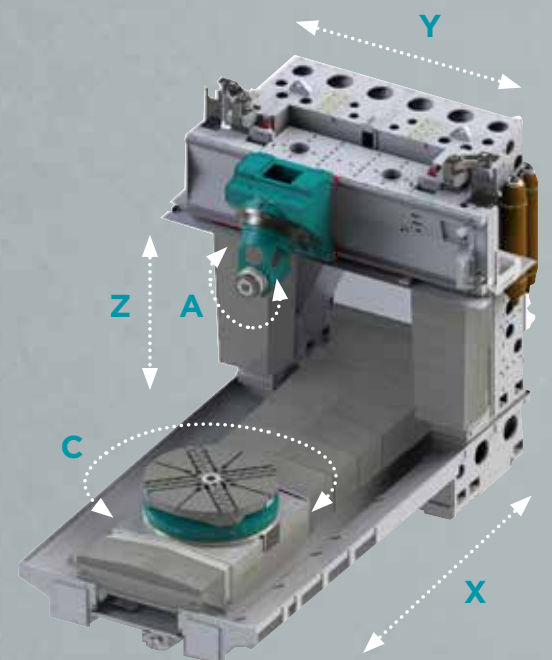

smart **P**

PR2 SUITE

visit us at our booth
HALL 13 - STAND B02

We will host you for the world preview of our new products:

- **SPEEDMAT VMT**: A multitasking machining center with integrated turning table for multiple operations in a single set up. It is completed by a 24" SmartP console embracing Industry 4.0.
- **SPEEDMILL**: a floor type milling machine highly flexible in its configuration, for the most demanding applications in aerospace and die & mold.
- **PR2 SUITE** - a suite of applications which embodies the philosophy of Industry 4.0 to increase productivity with an integrated management of machines, tools, part programs and plant data.
